Parenting Tips in Managing Screen Time

Guiding our children to a healthy relationship with screens, based on the guidelines set by MOH on screen time for kids under 12.

Izhar Rahman, Trust & Safety Specialist, alumni and parent of TNPS.

MOH's new screen time guidelines for kids under 12

Below 18 months

- **No screen time** (except for video calls)
- Do not leave screens on in the background

18 months to 6 years old

- Screen time: **Under 1 hour daily** outside school
- Watch media with kids when possible
- Do not use screens to occupy or distract children
- Choose age-appropriate educational content
- Do not leave screens on in the background
- **No screens during meals and before bedtime**

7 to 12 years old

- Screen time: **Under 2 hours daily**, except for schoolwork
- Avoid giving children mobile devices with unrestricted internet and app access
- Avoid giving children access to social media

Key Principles for Managing Screen Time

Establish trust and consistency

Communicate openly and set clear expectations

Model healthy screen use behaviour

Use parental tools judiciously

Parental Tools and Limitations

Screen time tracking and limiting apps e.g. Family Link (Free), Kids360/Alli360 (Subscription based), and Qustudio (Singtel),

Website blockers and content filters ([Google Safety Centre](#), Safesearch Function, YouTube Kids)

Limitations: encrypted platforms e.g. WA & Telegram, circumventing restrictions

Modelling Behaviour

Be mindful of your own screen use

Set a good example for your children

Encourage device-free times and zones

Conclusion

Summary of key points

- Different parenting styles
- Establishing Trust by being consistent
- Parenting Tools
- Starting with ourselves as parents

Work together to create a healthy relationship with screens

P1 Parent Engagement Session 2025

VISION

Students as
Future-Ready Digital Learners,
who are Anchored in Values and
Empowered to Learn for Life.

PRIMARY 1 DIGITAL LITERACY TRAINING PROGRAMME

Our Primary 1 students will:

- Familiarise themselves with the various **student accounts** they have,
- Learn **basic touch-typing skills**, and
- Discover how to **access common online learning platforms**, such as Padlet and Singapore Student Learning Space (SLS).

These sessions will be conducted during curriculum hours.

PRIMARY 1 DIGITAL LITERACY TRAINING PROGRAMME

DO YOU REMEMBER what we have learnt about typing?

Let us remember the important keys.

These are **letter keys**.

- We use them to type letters.

Q	W	E	R	T	Y	U	I	O	P
A	S	D	F	G	H	J	K	L	
↑	Z	X	C	V	B	N	M	↵	
123	space							return	

This is **Shift (arrow up)**. This is **Space bar**. This is **Delete (Backspace)**.

- We use it to make capital letters and change back to small letters.
- We use it to make a space between words.
- We use it to erase letters if we make a mistake.

STUDENT ACCOUNTS

An overview of key platforms used in school can be found on the page titled “Online Accounts for Students” in the Student Handbook (page 24).

Online Accounts for Students

In Tampines North Primary School, we leverage a wide range of ICT platforms to enrich the teaching and learning experience. These tools support collaboration, deepen understanding, and foster self-directed learning. This section provides an overview of the key platforms used.

SSOE Computer Login and Segregated Wireless Network (SWN) Account

This account enables students to log in to school laptops and access the school's Wi-Fi network.

Singapore Student Learning Space (SLS)

The SLS is the Ministry of Education's core platform for teaching and learning and one of its key initiatives to transform the learning experiences of Singaporean students through the purposeful use of technology.

Student iCON (For Pri 3 to Pri 6 students only)

Student iCON is a suite of Google apps (which includes an email account, Google Classroom, Google Docs, Google Slides, etc) that helps to better support students' learning and collaboration with others.

Moo-O (For Pri 1 and Pri 2 students only)

Moo-O is an application that transforms learners into story characters as they hone their language skills in reading fluency and speaking. This excites the students, ignites their interest in reading and helps them gain confidence in speaking aloud expressively.

Koobits

KooBits allows students to access online learning content and activities that aim to help students build up their mastery of Mathematics skills and concepts.

Young Scientist Badge Portal (For Pri 3 to Pri 6 students only)

Young Scientist Badge portal offers a variety of Science tasks to strengthen self-directed, hands-on learning. The tasks can increase students' motivation and engagement, making Science come alive.

eZhiShi 知识网 (For students taking Chinese Language only)

eZhiShi is a comprehensive learning platform aligned with the Singapore MOE syllabus for Primary School Chinese. It syncs with the textbook units and teaching progression for both standard and Higher Chinese, covering the full year's curriculum. It offers a range of pedagogy and assessments designed to enhance Chinese language learning. The platform combines traditional teaching methods with digital media, animation, and e-learning tools, providing a holistic approach to developing listening, speaking, reading, and writing skills.

MySkillsFuture (For Pri 5 and Pri 6 students only)

MySkillsFuture is provided for Primary 5 and 6 students as a one-stop portal to empower students to embark on a journey of self-discovery and make informed education and career choices.
